

# Think Almac...

## Superior peptide solutions

- Over 30 years' experience in peptide manufacture
- Rapid throughput, high quality manufacture
- Customised supply plan for your project needs
- Free consultation on peptide design & manufacturability
- Smooth transition to scale-up & cGMP manufacture
- Strong emphasis on project management & customer care throughout project lifetime

# Peptide synthesis services

A wide range of technical solutions to support your R&D

## Custom synthesis

- Peptide antigens
- Protein mapping
- Labelled peptide probes
- Peptide therapeutic candidate screening & development

## Challenging targets

- Long peptides in excess of 200 amino acids
- Multiple-disulfide-bridged peptides
- Constrained, cyclised & stapled peptides

## Catalogue products

- Chemokines
- Histones
- Complement proteins
- Ubiquitylated peptides

## Site specific peptide conjugation

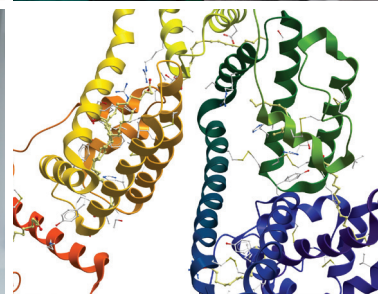

- Small molecule APIs
- Cytotoxics
- Fatty acids
- Carrier proteins such as KLH & albumin
- Collaboration with Albumedix™ on drug delivery technology
- PEG & other half-life extension moieties
- Metal chelators

## Peptide labelling

- Fluorophores
- Stable isotopes
- <sup>14</sup>C labelling

## Analytical support

- Extensive platform of modern analytical methods including HPLC, UPLC, HRMS, LC-MS, IC, GC, KF, ICP-MS
