## Clinical Trial Assays in Precision Medicine: Expert Perspectives from Diagnostics & Pharma

Almac Diagnostic Services invites you to Boston for an exclusive, invite-only event.

At this thought leadership event, we will explore clinical trial assays in precision medicine, examined through two distinct perspectives.

The session will focus on the key considerations for development and deployment of biomarker driven clinical trial assays for use in global clinical trials, with insights shared by senior leaders from Eli Lilly, Merck and Almac.

**Tuesday 24<sup>th</sup> March 2026**  
8:30am to 1:00pm

**Le Méridien Hotel, Boston**  
20 Sidney St, Cambridge,  
MA 02139, USA

Your expert speakers for the event will be:

**Anthony Sireci, MD**

Senior Vice President, Clinical Biomarkers & Diagnostics Development

**Eli Lilly**

**Latisha Love-Gregory**

Translational Molecular Biomarkers Genomics Lead / Director

**Merck**

**Katarina Wikstrom**

Global VP of Product Development

**Almac Diagnostic Services**

**Leeona Galligan**

Global VP of Clinical Testing

**Almac Diagnostic Services**

**Stewart McWilliams**

Global VP of Quality & Regulatory Affairs

**Almac Diagnostic Services**

**Spaces are limited and on an invite-only basis.**

To secure your place, kindly confirm your attendance as soon as possible with:

**Dwayne Stewart,**  
Global Marketing Manager,  
Almac Diagnostic Services.
