An overview of Almac

A closer look at Almac Group's expertise

The Almac Group is an established contract development and manufacturing organisation that provides an extensive range of integrated services to the pharmaceutical and biotech sectors globally. The services range from R&D, biomarker discovery development and commercialisation, API manufacture, formulation development, clinical trial supply, IVR technology (IVRS/IWRS) through to commercial-scale manufacture.

The international company is a privately owned organisation that has organically grown over 50 years and now employs in excess of 5,000 highly skilled personnel.

Almac is headquartered in Craigavon, Northern Ireland with additional operations across Europe, the US (Pennsylvania, North Carolina and California) and Asia (Singapore and Tokyo).

Innovative, tailored services covering the full pharmaceutical life-cycle

Diagnostic Services

Tailored companion diagnostic solutions, utilising complex biology, to help differentiate your drug in the marketplace

Almac Diagnostic Services is a precision medicine company, focused on the discovery, development and commercialisation of complex diagnostic tests.

The company, based in Craigavon, UK and Durham, USA has been in existence for over 15 years. We have a strong and stable leadership team who have worked together for over a decade and are extremely well networked within industry and academia.

Our diagnostic experience spans oncology, immunology, CNS and infective diseases.

In addition to supporting clients with their biomarker projects, Almac also has a portfolio of internally developed, novel biomarkers with predictive or prognostic utilities.

Our range of services:

- CDx Development & Commercialisation
- Clinical Trial Assay Development
- RUO Assay Development
- Clinical Testing
- Biomarker Discovery

Our Customised CDx Approach

We know that when it comes to the discovery, development & commercialisation of companion diagnostics for future precision medicines, no two pharmaceutical or biotech companies will ever have the same needs.

Our Customised CDx approach has been designed to offer you an intuitive partnership, with a range of flexible options and specialist supporting services tailored to your specific drug and companion diagnostic requirements.

Professor Paul Harkin
President & Managing Director,
Almac Diagnostic Services

Professor Paul Harkin is founder of Almac Diagnostic Services. As President and Managing Director, he has overall responsibility for the strategic, financial and operational leadership of the company.

Sciences

API Services and Chemical Development: your molecule, our expertise

Almac Sciences is a provider of integrated services from development to commercial scale of advanced intermediates and Active Pharmaceutical Ingredients (API).

We provide a range of services for small molecules (including highly potent) and peptides. We have a proven track record of saving time and costs through the integration of our services and application of innovative biocatalysis and technology solutions.

We have responded to our clients' needs of leading their molecules through clinical development faster, smarter and cost effectively, ensuring projects are completed to the highest quality, on time and in full.

- API Development & GMP Manufacture
- Small Molecules and Peptides
- Biocatalysis Solutions
- ¹⁴C Radiolabelling
- Analytical & Solid State Services

Complementing Almac Sciences' range of services is its Arran Chemical Company business unit. Arran manufactures products for diverse industrial applications, featuring a range of alkylamines, pharmaceutical intermediates, flavour & fragrance and other specialties. The combination of our exclusive biocatalysis technology platform with our large scale manufacturing asset allows fast supply of advanced intermediates from kg to multi-tonne scale.

Pharma Services

Drug product development to commercial manufacturing solutions

Providing scalable drug product development to commercial manufacturing solutions, Almac supports all phases of clinical trials, through product launch and ongoing supply.

- Non-GMP & GMP pharmaceutical development
- Scalable development & manufacturing solutions
- Comprehensive analytical support
- High potent processing

Pharmaceutical Development

Addressing the increasing pressure to bring clinical candidates through the pipeline faster and with greater efficiency, we provide expert development solutions. From developing a fit-for-purpose formulation for First-in-Human trials, to developing a more robust formulation and scaling up for late phase trials and commercialisation.

Graeme McBurney
President & Managing Director,
Almac Pharma Services

Graeme oversees the operations and long-term strategy for the Pharma Services' development and has over 20 years' experience in the manufacturing and distribution of pharmaceutical products.

Product Launch & Distribution

Having supported 15 orphan drug launches in the past 3 years, we pride ourselves on being the leader in understanding market requirements from product import analysis and country specific packaging to in-county distribution. Our expert product supply team ensure your launch dates are met and ongoing commercial supply is delivered on time in full.

Commercial Manufacture & Pack

Whether we are scaling up from our development services to full scale commercial supply or transferring existing commercial products, we can meet your commercial solid oral dose manufacturing requirements. With UK and US commercial packaging operations, we provide customised quality driven packaging solutions supporting both high volume marketed products and orphan drug launches.

25/25

Worked with all 25 of the top Biotechs

Phases I-IV

Experienced in phases one through four of pharmaceutical development

Clinical Services

Understanding and delivering your Global Clinical Supply Chain

Almac Clinical Services provides the most comprehensive global clinical supply chain solution in the marketplace.

Guided by our extensive clinical supply experience, we provide the physical resources and supportive technologies that ensure your clinical supply chain continually delivers across the globe.

Clinical trial supply chains are becoming longer and more complex, while costs are rising and sponsors face additional challenges to reduce waste, cost and timelines. As trials become truly global, sponsors require partners that can provide the physical means of packaging and distributing their supplies, as well as providing the data to facilitate planning and enable decision-making.

- Commercial Drug Procurement
- Clinical Supply Chain Management
- Blinding of Clinical Trials
- Clinical Supply Packaging (Primary and Secondary)
- Clinical Storage & Distribution
- Next Generation Temperature Management
- Qualified Person Services

With over 25 years' experience, a history of innovation and a record of delivering 30,000 protocols for over 600 global clients, we have the experience to support you in your trial from beginning to end – with the ability to foresee any potential issues before they arise.

Dr. Robert Dunlop
President & Managing Director,
Almac Clinical Services

Dr. Dunlop is responsible for the strategic, financial and operational leadership of Almac Clinical Services in the UK, US and APAC and has over 25 years' experience in the pharmaceutical industry.

Clinical Technologies

Real-time control of the most critical elements in protocol execution

Almac Clinical Technologies is here to help the biopharmaceutical industry bring new therapies to those in need by empowering trial sponsors to proactively manage sites, patients, and clinical supplies through our industry-leading technology and expert consultancy.

The solutions we offer facilitate more than simplifying patient and trial material management – they engineer quality into the clinical trial process. Our technology provides sponsors and CROs with the visibility and control needed to make data-driven decisions by leveraging advanced supply management functionality coupled with real-time site and patient data in a closed-loop environment.

We employ more than 500 professionals dedicated to delivering high-quality solutions and reliable customer service. For nearly two decades, our expertise, energy, and commitment have earned us a reputation as a trusted ally in the drug development process.

By the numbers:

- 2,000 clinical trials performed with IXRS®
- Over 2 million patients supported
- Trials conducted in over 85 countries
- 65+ Language
- 10+ Rescue Studies

Mega-trial experience:

- 510 studies lasting 5+ years
- 115 studies lasting 4+ years
- 44 studies with over 500 sites
- 170 studies with 200 sites
- 55 studies with more than 5,000 patients
- 34 trials with 10,000+ patients

Valarie Higgins

President & Managing Director,
Almac Clinical Technologies

Valarie directs Clinical Technologies' long-term commercial and operational growth strategies and has over 20 years' experience in the biopharmaceutical development industry.
