

# Almac Diagnostic Services Clinical Trial Dashboard

Almac Diagnostic Services has developed a dashboard tool designed to allow clients access to key information regarding their clinical studies.

The dashboard displays key data corresponding to client clinical studies, including:

Clinical Trial Summary – Received & Reported, Clinical Site Summary, Clinical Trial Status, Test Results & Clinical Trial Inventory.

## Key benefits:

- Clients can access information on **clinical study performance**: quality, turnaround time (TAT), clinical site metrics and biomarker data.
- Dashboard updates automatically on a **daily basis** offering the most up to date information for clients.
- Clients can view **clinical sample information** for their studies to **determine current inventory** at Almac labs.
- Clients can interrogate and export multiple clinical trial **data options** for more in-depth queries and analysis.

## Sign Up Process

You must be an Almac client with an existing clinical trial to avail of this service. Speak to a member of the Almac Diagnostic Services Business Development Team to understand more on how to sign up to the Clinical Trial Dashboard.
